

Magnetic Stirrer Hot Plate w/Thermometer, Magnetic Stir Plate w/Stir Bar Retriever, Max.520°F Hot Plate Stirrer, 100~2000RPM Magnetic Hotplate Stirrer w/Stir Bar n Support Stand

- **OPTIMIZED PERFORMANCE** - Experience seamless laboratory operations with our magnetic hotplate stirrer featuring adjustable stirring speed and heating. Achieve a whisper-quiet maximum of 2000RPM and powerful 180W heating to reach up to 520°F. Equipped with an internal, high-temp resistant magnet, our hot plate stirrer promises durability and reliability for all your scientific endeavors.
- **ESSENTIAL ACCESSORIES INCLUDED** - Our magnetic stirrer hot plate comes ready with crucial accessories - a highly precise electronic thermometer with a mere $\pm 1^{\circ}\text{C}$ error and a broad measurement spectrum of $-58^{\circ}\text{F}\sim 572^{\circ}\text{F}$, alongside a convenient stir bar retriever for safe removal from heated mixtures, providing comprehensive support for your mixing tasks.
- **ROBUST CONSTRUCTION** - Crafted with a die-cast aluminum alloy body, our magnetic stir plate balances compact design with ample durability. The all-aluminum stretching heating plate ensures quick and uniform heat distribution, guaranteeing longevity and consistent performance for all your experiments.
- **VERSATILE APPLICATION** - A staple tool in various fields, this hot plate stirrer is an indispensable asset for smoothly conducting stirring and heating of low-viscosity fluids, servicing diverse sectors including industry, agriculture, healthcare, research labs at academic institutions.
- **COMPLETE SET FOR IMMEDIATE USE** - Our package delivers everything needed for a professional setup: one magnetic hotplate stirrer, a stir bar retriever, a digital thermometer, supportive stands, a cross clamp, spare fuse, a stirring bar, power cord, and a comprehensive instruction manual, complete with lifetime technical assistance.
