

We are currently evaluating materials for a high-end refurbishment project. Please provide your best commercial quotation, along with **on-site execution photographs** and physical samples, for the following items based on the specifications provided below:

1. Heavy-Duty Z-Web Scraper Matting

- **Specifications:** Open, unbacked vinyl Z-web construction designed for extreme foot traffic and light wheeled traffic (carts/trolleys).
- **Thickness:** Minimum 12mm for flush recessed floor installation.
- **Feature:** Open pattern that allows dirt and moisture to fall through for easy maintenance.

2. Anti-Slip Wet Area Scraper Matting

- **Specifications:** Non-backed, antimicrobial-treated vinyl Z-web structure specifically engineered for drainage in wet environments.
- **Safety Standard:** High traction surface to reduce the risk of slips in wet/barefoot areas.

3. Premium Customized Hand-Tufted Carpet

- **Specifications:** 100% pure wool construction with a minimum 10mm pile height.
- **Quality:** High-density hand-tufted for a luxury feel and long-term durability in premium hospitality environments.

4. Commercial Grade ABS Soap Dispensers

- **Specifications:** Heavy-duty, non-metallic ABS plastic construction with a manual press-type pump.
- **Capacity:** Minimum 500ml–1000ml with a level display window for monitoring.

Submission Requirements:

- **Pricing:** Please provide your formal quote in a **Tax Invoice format**, clearly mentioning the price **with GST and without GST** for each item.
- **Visual Proof:** Share actual **site execution photographs** showing these materials installed in similar professional/luxury environments (not computer-generated renders).

- **Samples:** Availability of physical samples for final approval.
